

# Intermediate Task

## Task2: Implement Two-Factor Authentication (2FA)

To further enhance account security, I implemented Two-Factor Authentication (2FA) on my Gmail

How you sign in to Google

Make sure you can always access your Google Account by keeping this information up to date

2-Step Verification	2-Step Verification is off	>
Passkeys and security keys	Start using passkeys	>
Password	Last changed Jul 17, 2022	>
Skip password when possible	On	>
Google prompt	1 device	>

Google Account

< 2-Step Verification

Turn on 2-Step verification

Prevent hackers from accessing your account with an additional layer of security.

Unless you're signing in with a passkey, you'll be asked to complete the most secure second step available on your account. You can update your second steps and sign-in options any time in your settings. [Go to Security Settings](#)

Turn on 2-Step Verification

Second steps

Make sure you can access your Google Account by keeping this information up to date and adding more sign-in options

Passkeys and security keys	Add a security key	>
Google prompt	1 device	>
Authenticator	Add authenticator app	>
Phone number	Add a phone number	+

## [← Authenticator app](#)

### Turn on 2-Step Verification

To sign in with your authenticator app, turn on 2-Step Verification.

[Turn on](#)

Instead of waiting for text messages, get verification codes from an authenticator app. It works even if your phone is offline.

First, download Google Authenticator from the [Google Play Store](#) or the [iOS App Store](#).

#### Your authenticator
